

INTRODUCING... ROTO-PLATE

The only "All-in-One" Mount that's horizontal, vertical and everywhere in-between. Get the look you want, whenever you want, with a single product.

(Shown Horizontal)

(Shown Vertical)

KEY FEATURES

Lighting: With or without Brake Light. Super bright LED. Brake light version offers Brake, Running and License Plate Illumination.

Adjustable: Rotational Control Mechanism** allows for quick adjustment with a simple twisting action (no tools needed).

Orientations: Locks into locations every 45 degrees over full 360 degrees.

Wire Routing: Central wiring channel prevents wire damage during rotation.

Mounting: Rear axial, lower shock mount, swing arm (Alternate mounts available on request).

Legal: Stay compliant with State Law and Inspection requirements (If and when you feel like it!).

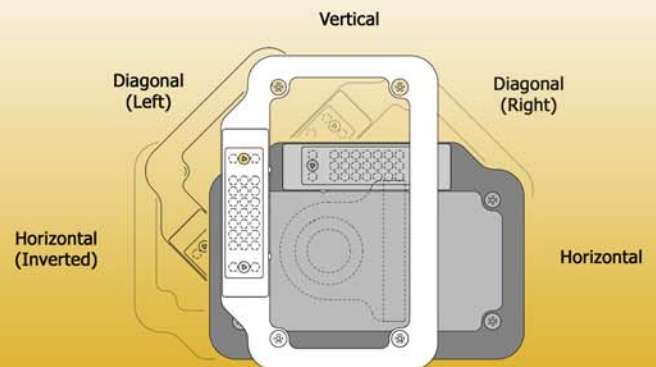

Material: Billet Aluminum CNC machined to an ultra smooth finish.

Finish: Chrome, Powder Coated Gloss or Flat Black.
